**VIRTUAL
HOSPITAL
MEDICINE
& MED-PEDS
SYMPOSIUM**

THE OHIO STATE
UNIVERSITY

2021 HOSPITAL MEDICINE & MED-PEDS SYMPOSIUM

The Ohio State University Wexner Medical Center's Hospital Medicine Symposium 2020 will be presenting cutting edge information on the most relevant important topics that affect medical practices in the inpatient settings; promoting improvement of quality patient care for hospitalized patients. The symposium offers targeted informational tracks designed to engage you with both peers and experts. A few highlighted topics include Medication-assisted Treatment Program Development, Updates in Pulmonary Medicine, Quality Improvement, and Care of Non-Verbal Patients. These diverse topics will provoke and inspire excellence in patient care!

Improve Your Knowledge

- Describe methods to implement an inpatient opioid treatment program.
- Explain new approaches to the management of diabetes and heart disease.
- Recognize updated approaches to pulmonary hypertension and oncology care.
- Utilize best practices for decreasing hospital readmission rates and improving inpatient quality.

Who Should Attend

Hospital Medicine Physicians, Internal Medicine physicians, Internal Medicine-Pediatric physicians, Family Practice physicians, physician assistants, nurse practitioners, nurses, fellows, residents, and other healthcare professionals interested in hospital based medicine.

Presenter Biographies

Hospital Medicine & Med-Peds Symposium 2021

Jennifer Allen, MD
OSUWMC

Assistant Clinical Professor

Dr. Allen is a hospitalist at The Ohio State University Wexner Medical Center and has over 16 years of experience in the field of medicine. She is an Associate Program Director for the Internal Medicine residency program and Director of Education for the Division of Hospital Medicine. Her interests focus on faculty development and medical education. Dr. Allen attended medical school at The Ohio State University College of Medicine and completed her internal medicine residency at The Ohio State University. She is board certified in Internal Medicine.

Joseph Asteriou, MD
OSUWMC

Assistant Clinical Professor

Dr. Asteriou is a hospitalist at the Wexner Medical Center in Columbus, Ohio. He received his medical degree from Wayne State University and completed his residency at The Ohio State University. He has been practicing hospital medicine for 8 years and has been involved with the Medication-Assisted Treatment program for 4 years.

Moises Auron, MD, FAAP, FACP, SFHM
Cleveland Clinic

Professor of Medicine

Dr. Auron is a Staff Physician at both the Department of Hospital Medicine and the Department of Pediatric Hospital Medicine at the Cleveland Clinic. He is dual board-certified in Internal Medicine and Pediatrics, as well as in Pediatric Hospital Medicine. Dr. Auron is a Professor of Medicine and Pediatrics at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University and is a core faculty at the residency and fellowship programs. He is the Quality Improvement and Patient Safety Officer of the Department of Hospital Medicine, Cleveland Clinic Main campus, and the Medical Director of Blood Management, Cleveland Clinic. Dr. Auron is also an Advanced Peer Coach and Mentor at the Cleveland Clinic Center for Executive Coaching and Mentoring. He has a special interest in hospital and perioperative medicine, quality and patient safety with emphasis in blood management and publicly reported healthcare measures. He is also passionate about coaching and mentoring. In Pediatrics, his area of interest includes hospital and perioperative medicine as well as pediatric obesity, eating disorders, and transition to adulthood of patients with complex chronic diseases of childhood.

Joshua Black, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Black graduated from medical school at the University of Nebraska Medical Center and completed an Internal Medicine Residency / Pediatrics Residency at Nationwide Children's Hospital / Ohio State Medical Center. Dr. Black's professional interests include asthma care of children, cognitive processes involved in medical diagnosis and medical error reduction. He enjoys leading Resident Journal Club and working with residents on the wards.

Gayathri ChelvaKumar, MD, MPH
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Chelvakumar is an attending physician in the section of Adolescent Medicine at Nationwide Children's Hospital and an assistant professor of clinical pediatrics at The Ohio State University College of Medicine. She received her medical degree from Northwestern University and completed her residency and adolescent medicine fellowship training at the Medical College of Wisconsin in Milwaukee where she also completed a Master of Public Health Degree. Her clinical interests include adolescent reproductive health and working with underserved adolescent populations. She provides care to transgender and gender diverse youth as Co-Medical Director of the THRIVE Gender Development Program, which she helped develop. She is also on the faculty for the World Professional Association of Transgender Health's (WPATH) Global Education Initiative. Additionally she is a member of the WPATH Standards of Care 8th version committee where she is helping write a new chapter on the care of transgender and gender diverse adolescents. Her research interests involve health promotion and education in collaboration with community-based organizations; and interventions to improve quality of life in transgender and gender diverse youth.

Presenter Biographies

Hospital Medicine & Med-Peds Symposium 2021

Chris Chiu, MD, FAAP, FACP
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Chiu is a Med-Peds doctor who has made his way to the Buckeye state after completing medical school and residency at Indiana University. He initially served for 4 years active duty at Wright Patterson Air Force Base where he discovered his interest in medical education. After his separation from the military, he has continued to be active in Graduate Medical Education at the Ohio State University as the Lead Physician of the General Internal Medicine Clinic at Outpatient Care East and works with faculty development as the Director of Education for the Division of General Internal Medicine. He is nationally known as Chris “The Chiu Man” Chiu with his work as a producer for “The Curbsiders,” an Internal Medicine Podcast which routinely ranks in the top 3 of Apple Podcasts in the United States “Medicine” Category with more than 700,000 downloads per month. He co-founded and launched a Pediatric spin-off podcast called “The Cribsiders” in the summer of 2020 which has grown to nearly 10,000 downloads per episode. He is active in the medical twitter community and can be found at his handle: @cjchiu.

Anyelika Delerme, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Delerme, MD is an Assistant Professor of Pediatrics and Internal Medicine at The Ohio State University College of Medicine. She recently joined the Division of Hospital Medicine as Med-Peds Hospitalist at The Ohio State Wexner Medical Center and Nationwide Children’s Hospital. As a graduate of the Medical College of Wisconsin (Milwaukee), Dr. Delerme completed her residency training in combined Internal Medicine and Pediatrics at The Ohio State University Wexner Medical Center and Nationwide Children’s Hospital where she served as Chief Resident. Dr. Delerme co-founded the GME-wide Council for Inclusion, Diversity, Equity and Advocacy (IDEA). She also spearheaded recruitment efforts within her residency program for those who identify as Underrepresented in Medicine. She is thrilled to be able to continue to pursue her passions in medical education as well as inclusion and diversity, particularly as it relates to medical training and patient care.

Vignesh Doraiswamy, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

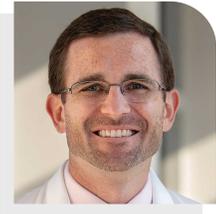

Dr. Doraiswamy is a physician in the Sections of Adult Hospital Medicine and Hospital Pediatrics at Nationwide Children’s Hospital and the Division of Hospital Medicine at The Ohio State University Wexner Medical Center. He is also a clinical assistant professor at The Ohio State College of Medicine where he works with medical students as a Portfolio Coach and Applied Health Systems Science Coach. At The OSU James Cancer Center, he is the Quality and Patient Safety Lead for the James Hospitalist service lines. He completed a combined Internal Medicine and Pediatrics residency and was the Med-Peds chief resident at Penn State Health. Dr. Doraiswamy specializes in taking care of hospitalized adults and children. He is actively involved in medical student and resident education with interests in health equity and advocacy, health systems science, curriculum design and clinical reasoning. His clinical interests are point of care ultrasound and global health.

Sitaramesh Emani, MD
OSUWMC / Nationwide Children's Hospital

Associate Clinical Professor

Dr. Emani is an Interventional Heart Failure & Transplant Cardiologist at Ohio State, who specializes in cardiogenic shock, advanced heart failure, cardiac transplantation and other areas of mechanical heart support. He is passionate about his career because of the cutting edge treatments and advancements in cardiovascular technology that have the ability to dramatically improve patients' lives.

Matthew Emery, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Emery is a physician in the Sections of Hospital Pediatrics at Nationwide Children's Hospital and Adult Hospital Medicine at The Ohio State University Wexner Medical Center. He actively practices hospital medicine at both institutions, caring for both children and adults. Dr. Emery received his undergraduate degree from Duke University and attended medical school at Wake Forest School of Medicine. He completed his combined internal medicine and pediatric residency at The Ohio State University and Nationwide Children's Hospital and is board certified in both Internal Medicine and Pediatrics. Dr. Emery also enjoys participating robustly in medical education and on the admissions committee at The Ohio State University College of Medicine.

Katie Ernst, MD
OSUWMC

Assistant Clinical Professor

Dr. Ernst is a primary care physician, who has the opportunity to establish relationships with both children and adults. She sees her patients as people first and patients second. She applies a holistic approach when addressing a patient's emotional and mental needs in addition to physical needs. Dr. Ernst loves working at The Ohio State University Wexner Medical Center because of the vast pool of resources and support at my disposal. She loves helping other live happy and healthy lives. Dr. Ernst plans to work on more quality improvement initiatives focused on lifestyle and obesity medicine. She believes the academic medical center offers a friendly, yet professional, atmosphere where she can continue to evolve as a primary care physician.

Matthew Flanigan, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Flanigan is an Assistant Professor of Internal Medicine and Pediatrics at The Ohio State University College of Medicine and I am board-certified in both internal medicine and pediatrics. He is an OSU "lifer", having completed undergrad, medical school and residency all at OSU. Dr. Flanigan practices primary care at OSU Internal Medicine and Pediatrics at Grandview Yard and has an interest and growing expertise in medical education. Academically, he works primarily with "third year" medical students during Part 2 of The Ohio State University College of Medicine's Lead.Serve.Inspire curriculum, serving as the Unit Director of Ambulatory Internal Medicine for the "Patients within Populations" ring and also as an Expert Educator for Evaluation and Assessment. In addition, he precepts internal medicine and pediatric residents at Nationwide Children's Hospital South High Primary Care Center.

Martin Fried, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Fried is an academic primary care physician in the OSU Division of General Internal Medicine. His clinical interest is the integration of addiction medicine within primary care, he founded the OSU Primary Care Addiction Medicine Clinic in August 2020. His other major interest is the use of novel internet-based educational modalities in traditional educational curricula. He is the co-founder and producer of Core IM, an internal medicine podcast, and has spoken regionally and nationally about various topics related to digital scholarship.

Aaron Friedberg, MD
OSUWMC

Assistant Clinical Professor

Dr. Friedberg is an internist in Columbus, Ohio and a clinical lead for the Post-COVID-19 Recovery Program at The Ohio State University Wexner Medical Center in addition to his work as a primary care physician and hospital attending. He completed medical school and residency at the University of Cincinnati and has been in practice for >5 years.

Susan Friedman, MD

OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Friedman is a specialist in Internal Medicine and Pediatrics in Columbus, Ohio. She graduated with honors from Ohio State University College Of Medicine in 2011. Having more than 10 years of diverse experiences, especially in internal medicine and pediatric medicine, Dr. Friedman affiliates with many hospitals including Ohio State University Hospitals, James Cancer Hospital & Solove Research Institute, Nationwide Children's Hospital, cooperates with many other doctors and specialists in medical group OSU General Internal Medicine LLC.

Kelly Grannan, MD, MPH

OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Grannan is a hospitalist in internal medicine and pediatrics. She completed residency training in Internal Medicine and Pediatrics at University of Cincinnati and Cincinnati Children's Hospital in 2019 and completed her Medical Degree and Masters of Public Health at University of Miami in 2015. Her primary interests are in high quality inpatient medical care for children and adults, promoting health equity in underserved populations and global health.

Derrick Herman, MD

OSUWMC

Assistant Clinical Professor

Dr. Herman is a Pulmonary Disease Specialist in Columbus, Ohio. He graduated with honors from University Of Cincinnati College Of Medicine in 2013. Having more than 8 years of diverse experiences, especially in pulmonary disease, Dr. Herman affiliates with many hospitals including Ohio State University Hospitals, Memorial Hospital, James Cancer Hospital & Solove Research Institute, cooperates with many other doctors and specialists in medical group OSU Internal Medicine LLC. His clinical interest is interstitial lung disease and I'm the clinical director of the interstitial lung disease program at Ohio State. He's also the medical director of pulmonary rehab at carepoint east. His non-clinical interest is research methodology for which he is involved in doing systematic reviews and meta-analyses for one of pulmonary and critical care's professional societies (american thoracic society) to inform clinical practice guidelines released by the organization. The most recent clinical practice guideline involves interstitial lung disease. He's also involved in teaching principles of evidence-based medicine to medical students, internal medicine residents, and pulmonary and critical care fellows at OSU.

Kristina Lehman, MD, IBCLC, FABM, FAAP

OSUWMC / Nationwide Children's Hospital

Associate Clinical Professor

Dr. Lehman is a primary care physician working with all ages at The Ohio State University Wexner Medical Center. Her primary office is in Hilliard, Ohio. She is also an attending for the newborn hospital medicine team at OSUWMC and practice breastfeeding medicine. Dr. Lehman believes in patient centered care and prevention. She tries to take each patients' thoughts, belief, and interests into consideration to come up with a care plan that will work for them. She has a special interest in parenting, breastfeeding and postpartum issues that women face.

Kristen Lewis, MD

OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Lewis completed her training in internal medicine and pediatrics at The OSU Wexner Medical Center and Nationwide Children's Hospital and is a hospitalist physician at both of these institutions. She is board certified in pediatric hospital medicine. Dr. Lewis' clinical time is spent in the context of educating students and residents while caring for patients. In addition to her clinical responsibilities, Dr. Lewis spends a significant portion of her time contributing to medical student education at the Ohio State College of Medicine. As an Associate Vice Chair for Education in the Department of Internal Medicine, she oversees all student programming within the department. As the Director of Mini-Internships, Dr. Lewis directs the required fourth year sub-internship course completed by all medical students. Dr. Lewis particularly enjoys working directly with medical students, including teaching history and physical exam skills through the College of Medicine's Longitudinal Group curriculum, and coaching students through the Portfolio Coaching program.

Presenter Biographies

Hospital Medicine & Med-Peds Symposium 2021

Shabbir Matcheswalla, MD, FHM, FACP
OSUWMC

Assistant Clinical Professor
Medical Director

Dr. Matcheswalla is an assistant professor of clinical medicine in the Division of Hospital Medicine at the Ohio State University. He also serves as the medical director of the hospitalist services at the Ross Heart Hospital. He graduated from Marshall University School of Medicine medical school in 2007 and completed his internal medicine residency there as well in 2010.

Erin McKnight, MD, MPH
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. McKnight is a member of the Division of Adolescent Medicine at Nationwide Children's Hospital and an Assistant Professor of Clinical Pediatrics at The Ohio State University College of Medicine. She received her medical degree from Northeastern Ohio Universities College of Medicine and a Master's in Public Health from The Ohio State University. Dr. McKnight completed her residency and adolescent medicine fellowship at Nationwide Children's. She is currently the medical director of the Medication Assisted Treatment for Addiction (MATA) program, providing care for youth with opioid use disorder, as well as practices in the general Adolescent Medicine Clinic and Eating Disorder Program. She is co-chair of the Opioid Safety Task Force at Nationwide Children's Hospital, utilizing quality improvement methods to decrease opioid prescribing and improve opioid safety research interests involve opioid prescribing practices and adolescent opioid misuse.

Lucas McKnight, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

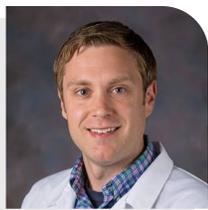

Dr. McKnight is a physician in the Section of Adult and Pediatric Hospital Medicine at Nationwide Children's Hospital (NCH) and an assistant professor of Internal Medicine and Pediatrics at The Ohio State University (OSU) College of Medicine. He is an Associate Program Director for the Internal Medicine-Pediatrics Residency at NCH and OSU. Dr. McKnight teaches a class for first and second year medical students through OSU with focus on early development of clinical history and exam skills. In addition to the above, he also has clinical time in the Internal Medicine-Pediatric Residency continuity clinic on South High St. Dr. McKnight attended medical school at The University of Nebraska College of Medicine and completed his Internal Medicine-Pediatrics residency at The Ohio State University. He is board certified in Pediatrics and Internal Medicine. Dr. McKnight's career interests include medical student and resident education. His clinical interests include care for hospitalized patients, inpatient consults, and training future health care providers.

Sanjay Patel, MD, FACP, FHM
Riverside Hospital - OhioHealth

Associate Program Director

Dr. Patel is a Hospitalist at Riverside Methodist Hospital in Columbus, Ohio. He graduated with honors in 2009 from Ross University School of Medicine and completed his residency and chief residency training at Cook County Hospital in Chicago, IL. In addition to over 12 years of clinical experience, Dr. Patel has been in various roles in medical education throughout his career. He currently serves as the Associate Program Director for the internal medicine residency program at Riverside.

Michael Perry, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Perry is a physician in the Section of Hospital Pediatrics at Nationwide Children's Hospital and an assistant professor of Pediatrics at The Ohio State University College of Medicine. Dr. Perry attended medical school at Wright State University Boonshoft School of Medicine in Dayton, Ohio and completed his pediatric residency training with an additional chief year at Nationwide Children's Hospital. He is board certified in Pediatrics. Dr. Perry serves as the Hospital Pediatrics Quality and Safety Medical Director and H9A Medical Director. He also currently leads an institutional initiative, supported by a multidisciplinary team, focused on improving diagnostic quality and safety at Nationwide Children's Hospital by reducing diagnostic errors and improving diagnostic excellence. His other research interests include patient safety through situational awareness and operational efficiency.

Ujjwal Ramtekkar, MD, CPE, MBA, MPE, DFAACAP

OSUWMC / Nationwide Children's Hospital

Medical Director
Associate Clinical Professor

Dr. Ramtekkar is an associate professor of Psychiatry and Behavioral Health at the Ohio State University. He serves as associate medical director for Partners for Kids (PFK), one of the largest pediatric accountable organization in the country and medical director of tele/virtual health for department of Psychiatry at Nationwide Children's Hospital. His primary focus has been on development of behavioral health competencies and access in primary care setting through programs like Project ECHO, behavioral health integration, and BH=TIPS video consultation program for primary care. He has been the co-founding director of a statewide behavioral health access program and consultant for HRSA funded expansion grant to implement integrated behavioral health program. He represents behavioral health in the National Advisory Group, American Academy of Pediatrics and participates nationally on workgroups developing policies and guidelines for practice of child and adolescent psychiatry. His research focuses on novel methods of healthcare delivery including behavioral health integration in primary care, telehealth for rural and underserved areas and the epidemiological, workforce related and population-based factors in child and adolescent health. He has several publications including book chapters, research articles, practice guidelines and participates actively as reviewer for over 12 scientific journals.

Allison Rossetti, MD

OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Rossetti is a physician in the Sections of Hospital Pediatrics at Nationwide Children's Hospital and Adult Hospital Medicine at The Ohio State University Wexner Medical Center. She is an Associate Program Director for the combined Internal Medicine-Pediatrics residency program and Director of the Internal Medicine-Pediatrics Clinical Track for 4th year medical students at OSUCOM. Her interests focus on optimizing inpatient care management and medical education. Dr. Rossetti attended medical school at The Ohio State University College of Medicine and completed her combined internal medicine and pediatric residency at The Ohio State University and Nationwide Children's Hospital. She is board certified in Internal Medicine and Pediatrics.

Andrew Schamess, MD

OSUWMC

Assistant Clinical Professor

Dr. Schamess is a General Internal Medicine Attending Physician who has more than 20 years of experience. He is employing a whole-person approach to healthcare in order to address the health challenges faced by Adults with Chronic Healthcare Needs (ACHNs). Dr. Andrew Schamess has a longstanding interest in the needs of underserved populations and in making health care more accessible to all. His research interests center on developing new strategies for health care delivery to complex patients. From 2012 to 2016, Dr. Schamess led the OSUMC Healthy at Home program, which provided home-based primary care to persons with chronic illness and disability. At present, he is collaborating with The James Cancer Center on a trial of home-based primary care for patients with sickle cell disease. He and Dr. Friedberg were the founding physicians for Ohio State University's Post-Acute Sequelae of COVID19 clinic, which treats patients with "Long COVID."

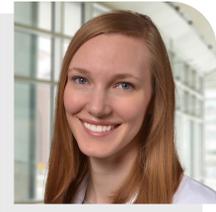

Nadine Schwartz, MD

OSUWMC / Nationwide Children's Hospital

Medical Director
Associate Clinical Professor

Dr. Schwartz is Board-certified in Pediatrics, General Psychiatry, Child & Adolescent Psychiatry. Her clinical interests include medical/consult Child & Adolescent Psychiatry in outpatient and in pediatric hospital settings. She received her medical degree from Temple University School of Medicine and has been in practice for more than 20 years. Academic interests include educating trainees in child & adolescent psychiatry and psychiatry and educating pediatrics trainees to increase their comfort and ability to manage their patients' mental & behavioral health concerns.

Claire Sevov, MD

OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Sevov is an Assistant Clinical Professor of Pediatrics and Internal Medicine at The Ohio State University College of Medicine and a practicing Med-Peds Hospitalist at The Ohio State University Wexner Medical Center and Nationwide Children's Hospital. She completed medical school and residency training at the University of Michigan and is board certified in both Internal Medicine and Pediatrics. Dr. Sevov has a strong interest in medical education and currently serves as the chair of the Hospital Pediatrics Education Committee and rotation director of the Hospital Pediatrics inpatient rotation. She is also actively engaged in several QI projects around the treatment of children hospitalized with bronchiolitis.

Mohammad Shujaat, MD

OSUWMC

Assistant Clinical Professor

Dr. Shujaat is a board certified neuroradiologist and joined the faculty at The Ohio State Wexner Medical Center in 2017. I operate within the Department of Radiology and have an interest in neurology and neuroradiology. I currently serve as an assistant professor in the Division of Emergency Radiology.

Ashleigh Slemmer, MD, MBA

Nationwide Children's Hospital

Hospital Pediatrics Fellowship, PGY-4

Dr. Slemmer is from Columbus, Ohio and attended medical school at Ohio University where she also earned her MBA as part of a dual degree program. She attended Nationwide Children's where she completed her pediatric residency with advanced competencies in global health and advocacy. She is currently a first year PHM fellow at Nationwide Children's Hospital where she is focusing on providing high value care, quality improvement, resource utilization, leadership, and clinical research.

Kevin Steiner, MD, PhD, DTM&H

OSUWMC

Assistant Clinical Professor

Dr. Steiner is an infectious diseases specialist at the Ohio State Wexner Medical Center where he has been on faculty for just over one year. Prior to coming to Ohio State, he completed infectious diseases fellowship at the University of Virginia, residency in internal medicine and global health equity at Brigham & Women's Hospital in Boston, MA, and medical school and PhD training at Case Western Reserve University. His current professional efforts focus on general infectious diseases and medical education, though he loves all things tropical ID & parasite-related, bowties, bicycling, and building Lego structures with his young daughter

Kasey Strothman, MD

OSUWMC / Nationwide Children's Hospital

Medical Director
Assistant Clinical Professor

Dr. Strothman is an assistant professor of pediatrics in the Division of Allergy and Immunology. She graduated with a BA from Saint Louis University in Saint Louis, MO before then attending the University of Louisville School of Medicine. She graduated with her medical degree in 2010. After completing a pediatrics residency at Kosair Children's Hospital in Louisville, KY in 2013, she relocated to Columbus, OH for an allergy/immunology fellowship at The Ohio State University. Following completion of fellowship in 2015, she joined the faculty at Nationwide Children's Hospital. Kasey Strothman is board-certified in Allergy and Immunology, and a fellow of the American Academy of Allergy, Asthma and Immunology. In 2020 she became director of the Complex Asthma Clinic at Nationwide Children's Hospital. She has an active interest in primary immunodeficiency as well, and currently serves on a multidisciplinary team that provides specialty care to patients with 22q11.2 Deletion Syndrome. She has a strong interest in anaphylaxis, and has been collaborating with Columbus Division of Fire since 2016 on a research project to improve knowledge about anaphylaxis and standardize management of anaphylaxis in the prehospital setting. In addition to providing patient care, she enjoys working with the fellows as an educator particularly as a preceptor for second year continuity clinic.

Melissa Tullock, DO, FAAP
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Tullock joined Nationwide Children's Hospital in August 2020 as a physician in the section of Hospital Pediatrics and an assistant professor of Pediatrics at The Ohio State University College of Medicine. Dr. Tullock completed her pediatric residency training at Goryeb Children's Hospital at Morristown Medical Center in Morristown, NJ. She then continued her training at Floating Hospital for Children at Tufts Medical Center in Boston, MA, where she completed a fellowship in Pediatric Hospital Medicine. Dr. Tullock is board certified in General Pediatrics. She has been involved in local and national quality improvement initiatives as well as serving as a national representative of the American Academy of Pediatrics. Her interests include patient safety, family centered and evidence-based care, and pediatric mental health.

Patrick Warren, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Warren is a board-certified interventional and pediatric radiologist at Nationwide Children's Hospital. He has been a member of the department of radiology since 2012. He has held the position of section chief of ultrasound and is currently the section chief of interventional radiology. Dr. Warren's primary clinical specialization is image guided minimally invasive percutaneous and endovascular diagnosis and treatment of pediatric disease. Particular areas of interest include complex vascular access and venous access salvage, endovascular management of acute deep vein thrombosis, invasive and non-invasive vascular imaging, portal hypertension and hepatobiliary interventions, and interventional oncology. He has lectured nationally and internationally and published numerous peer-reviewed journal articles.

Joshua Watson, MD
OSUWMC / Nationwide Children's Hospital

Assistant Clinical Professor

Dr. Watson is an Assistant Professor of Pediatrics in The Ohio State University College of Medicine and Nationwide Children's Hospital. After completing undergraduate studies at the College of William and Mary, he received his MD from the University of North Carolina School of Medicine in 2007. He then moved to Columbus for residency training in Internal Medicine and Pediatrics at OSUCOM and NCH. Following residency, he served as Pediatric Chief Resident at NCH and then completed fellowship training in Pediatric Infectious Diseases in 2015. As a faculty member, he enjoys teaching medical students during their pediatric clinical rotations. His research interests include antimicrobial stewardship and pediatric urinary tract infections.

Glenn Westphal, MD
OSUWMC

Assistant Clinical Professor

Dr. Westphal is an associate clinical professor in internal Medicine in the Division of Hospital Medicine. He is currently practicing as a hospitalist at OSU Wexner Medical Center in Columbus, OH. He received his medical degree from the University Of Toledo College Of Medicine in Toledo, OH and completed an internal medicine residency and chief resident year at the University of Illinois at Chicago in Chicago, IL. He has been a faculty member at The Ohio State University since July 2020. His non-clinical interests include physician wellness and medical student/resident education.

Quality Improvement & Clinical Research Poster Competition

Hospital Medicine & Med-Peds Symposium 2021

- P1 — **Pediatric Otolaryngology Tonsillectomy Pre-Operative Bleeding Risk Assessment Questionnaire Utilization and Optimization**
Daoud, Georges; Gibbs, Hannah; Heller, Margaret; Langston, Devon; Liu, Kevin; Rice, Robin; Rygalski, Chandler; Jatana, Kris
MS4, The Ohio State University of College Medicine, Columbus
- P2 — **Implementation of a COVID-19 Vaccine Emergency Department Education Program for Underserved Communities: A Pilot Quality Improvement Project**
Geyer, Emily
MS4, The Ohio State University of College Medicine, Columbus
- P3 — **Intrathecal Morphine Administration in Pediatric Patients Undergoing Selective Dorsal Rhizotomy: A Pilot Study**
Goel, Nupur
MS3, Akron Children's Hospital, Akron
- P4 — **An Evaluation of Targeted Muscle Reinnervation Timing and Neuropathic Pain Prevention**
Goodyear, Evelyn
MS2, The Ohio State University of College Medicine, Columbus
- P5 — **Utility of Electroencephalogram in a Pediatric Emergency Department**
Gunawardena, Sanuri
MS4, Wright State University Boonshoft School of Medicine, Dayton
- P6 — **The Impact of Targeted Muscle Reinnervation on Post-operative Complications after Hip Disarticulation**
Huffman, Allison
MS2, The Ohio State University of College Medicine, Columbus
- P7 — **Evaluating the Management and Patient Outcomes of High-Risk Lead Extractions Requiring Emergent Sternotomy**
Makhijani, Rohan
MS2, The Ohio State University of College Medicine, Columbus
- P8 — **The Impact of Cochlear Implantation on Speech and Language Outcomes in Children with Asymmetric Sensorineural Hearing Loss**
Melachuri, Manasa
MS4, Northeast Ohio Medical University, Rootstown
- P9 — **Improving Resident Autonomy on Pediatric Hospital Medicine**
Smith, Matthew
PGY3, Nationwide Children's Hospital, Columbus
- P10 — **A Communication-Based Approach to Reducing Central Line and Foley Catheter Utilization**
Smith, Zachary
MS4, The Ohio State University of College Medicine, Columbus
- P11 — **A Retrospective Cohort Study Assessing Respiratory Outcomes in Patients with Sepsis Secondary to Pneumonia that Achieved 30 cc/kg Fluid Goals**
Young, Hollis
MS2, Wright State University Boonshoft School of Medicine, Dayton
- P12 — **Pharmacotherapy in the Treatment of Patients with Nerve Pain**
Zimmer, Jessica
MS2, The Ohio State University of College Medicine, Columbus

- P1 — **Infective Endocarditis in a Previously Healthy Adolescent**
Boyles, Sundy
PGY3, Nationwide Children's Hospital, Columbus
- P2 — **A Case of Neutropenic Fever with Pancytopenia Secondary to Suspected Methotrexate Toxicity**
Chacko, Andrew
MS3, The Ohio State University of College Medicine, Columbus
- P3 — **Lemierre Syndrome: To Anticoagulate or Not?**
Feliu, Mary
MS3, The Ohio State University of College Medicine, Columbus
- P4 — **Post COVID-19 Lymphocytic Hypophysitis: A Rare Presentation**
Gunawardena, Sanuri
MS4, Wright State University Boonshoft School of Medicine, Dayton
- P5 — **Antiphospholipid Syndrome and Cocaine Lead to Diffuse Alveolar Hemorrhage**
Kim, Lisa
PGY3, The Ohio State University of College Medicine, Columbus
- P6 — **A Dangerous Inheritance: A Case of Cirrhosis due to Congenital Hepatitis B**
Kwon, Danny
MS4, The Ohio State University of College Medicine, Columbus
- P7 — **Nocturnal Hallucinations in an Adult with Maple Syrup Urine Disease**
Magnuson, Cody
MS3, The Ohio State University of College Medicine, Columbus
- P8 — **Pneumocystis Jirovecii Pneumonia Prophylaxis in a 65-year-old Man on Immunosuppression for Rheumatoid Arthritis**
Mason, Thomas
MS4, The Ohio State University of College Medicine, Columbus
- P9 — **An Unusual Case of Central Pontine Myelinolysis**
Mathieu, Kathleen
MS4, The Ohio State University of College Medicine, Columbus
- P10 — **Parathyromatosis: A Rare Etiology of Severe Hyperparathyroidism and Hypercalcemia**
Sattouf, Zafer
MS4, Wright State University Boonshoft School of Medicine, Dayton
- P11 — **Vomiting and Failure to Thrive as Presenting Symptoms of B12 Deficiency**
Wong, Sienna / Medical Pediatrics
MS3, The Ohio State University of College Medicine, Columbus
