

THE OHIO STATE UNIVERSITY

COLLEGE OF MEDICINE

Faculty Positions in Neuroscience

The Ohio State University (OSU), Wexner Medical Center, College of Medicine

The Department of Neuroscience is looking to hire one tenure-track faculty member with research expertise focused on **chemosensory receptor biology and/or the mechanisms of taste, olfaction, and/or somatosensory sensations relevant to feeding behaviors**. This position may be at the rank of Assistant, Associate or Full Professor. Candidates working in mammalian or non-mammalian systems are encouraged to apply.

As part of an ongoing commitment to place OSU at the forefront of research, innovation, and patient care, The College of Medicine is committing significant resources to build cutting-edge and internationally recognized basic and translational neuroscience programs. This position is partially funded by the Foods for Health <https://discovery.osu.edu/foods-health>), part of Ohio State's Discovery Themes Initiative, a significant faculty hiring investment in key thematic areas in which the university can build on its culture of academic collaboration to make a global impact. Through this program, The Ohio State University's Colleges of Food, Agriculture, and Environmental Sciences, Education and Human Ecology, Arts & Sciences, and Medicine have already recruited eight tenure-track Assistant Professors and tenured Associate/Full Professors who study the relationship between foods, disease prevention, and health promotion.

The Ohio State University values a culturally diverse faculty and strongly encourages applications from women and other members of underrepresented groups in science. Candidates must hold a Ph.D. or equivalent and at least 3 years postdoctoral experience with a strong record of scholarly activity. Candidates for appointment as Associate or Full Professors should also be nationally or internationally recognized scholars with consistent externally funded research programs. Prospective candidates should send a statement of research interests, vita and a list of three references (PDF format) to recruitosuneurosci@osumc.edu. Applications are being accepted now and formal review will begin January 11th, 2021. The search will remain open until the position is filled.

The College of Medicine believes diversity fuels innovation and strives to cultivate an inclusive environment that supports all faculty, staff, and students to thrive and excel (<https://medicine.osu.edu/diversity>). The Ohio State University is also an equal opportunity, affirmative action employer and all applicants will receive consideration without regard to race, color, religion, sex, age, sexual orientation, gender identity, national origin, disability or protected veteran status. Unless confidentiality is requested in writing, information regarding the applicants must be released upon request.
