THE OHIO STATE UNIVERSITY WEXNER MEDICAL CENTER

THE OHIO STATE  
UNIVERSITY

WEXNER MEDICAL CENTER

## You're passionate about improving lives. So are we.

The Ohio State University Wexner Medical Center is one of the largest and most diverse academic medical centers in the nation, located on one of the most comprehensive health science campuses in the country. Here, our work revolves around a powerful mission: to improve health in Ohio and across the world through innovations and transformation in research, education, patient care and community engagement.

When you join us, you join in that mission. Being part of Ohio State means pushing the boundaries of discovery and knowledge while challenging yourself to do better.

It means rising to the world's most pressing health challenges — with a team of thousands by your side. Our wide-ranging expertise and extensive resources empower us to tackle these challenges in a way few others can match.

**Share our mission. Challenge yourself. Join our team.**

## By the numbers

### The Ohio State University Wexner Medical Center

**22,800+** employees

**2,013** physicians

**1,018** residents and fellows

**5,139** nursing staff

**\$5.9B** revenue

### The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (OSUCCC – James)

**Third-largest** cancer hospital in the country

**\$76M+** in total NCI grant funding in 2023

**46 new NCI** grants awarded in 2023

**500+** clinical trials available

**5,800+** faculty and staff

**275+** volunteers

**1,700+** cancer researchers

### The Ohio State University

**40,000+** full-time equivalent employees

**18** colleges and schools

**250+** majors

**65,000+** undergraduate, graduate and professional students

**600,000+** living alumni around the world

### The Ohio State University College of Medicine

**Tier 1** Best Medical School – Research

**Tier 2** Best Medical School – Primary Care

**\$477.3M+** in total funding

**5K+** learners

**2K+** research studies

**The Ohio State University Wexner Medical Center**

*Our ambition: To be a Top 20 academic health center driving breakthrough health care solutions that transform people's lives and the communities in which we live.*

As one of the largest and most diverse academic medical centers in the country, we've always been on the leading edge of education, discovery and patient care — and now we're going even further.

The Ohio State Wexner Medical Center, part of one of the most comprehensive health sciences campuses in the country and the only academic medical center in central Ohio, is at the forefront of medicine. Here, discovery and innovation in our research laboratories translate to unique and effective therapies — available to patients well before they reach other hospitals.

These initiatives take place across our vast health care platform: within the Ohio State College of Medicine, at more than a dozen affiliated research centers and inside seven hospitals, where more than 60,000 inpatients receive medical care annually.

In addition, we have a unified physician practice, representing more than 2,000 preeminent physicians, and a network of community-based primary and subspecialty care facilities that manage more than 3.2 million patient visits each year. We offer health care services in virtually every specialty and subspecialty in medicine. Thousands of patients come to us each month for treatments and services they can't find anywhere else.

**The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (OSUCCC – James)**

The OSUCCC – James strives to create a cancer-free world by integrating research with excellence in education and patient-centered care. Ohio State is a National Cancer Institute (NCI)-designated Comprehensive Cancer Center, a designation competitively maintained since 1976, and is one of only a few centers funded by the NCI to conduct phase I, II and III clinical trials on novel anticancer drugs provided by the NCI.

As the cancer program's 356-bed adult patient care component, The James is the third-largest cancer hospital in the country and one of the best in the nation as ranked by *U.S. News & World Report*. With 21 floors and more than 1.1 million square feet, The James fosters collaboration and integration of cancer research and clinical cancer care.

To increase critically needed cancer research funding at the OSUCCC – James, Pelotonia was established in 2008 and has become the No. 2 cycling fundraiser in the country, raising more than \$300 million since its inception. Thanks to the event's major funding partners, every dollar raised by participants goes toward innovative cancer research and initiatives such as the Pelotonia Institute for Immuno-Oncology at the OSUCCC – James.

**The Ohio State University**

The Ohio State University, located in the capital city of Columbus, is a major educational and economic force. Founded in 1870, we're one of the nation's largest and most comprehensive public research universities that's deeply committed to making a college education accessible and affordable for the next generation of leaders and engaged citizens.

Our size is our advantage: More than 40,000 full-time faculty, researchers and staff work in and across nearly every area of expertise imaginable. With an unrivaled capacity to bring together people, ideas and resources, we're creating the solutions people need now. Together, with our students and far-reaching alumni community, our impact is felt around the world.

**The Ohio State University College of Medicine**

The Ohio State University College of Medicine, founded in 1914, is known for curricular innovation, groundbreaking research and transformative models of comprehensive care. With more than 2,600 faculty members, the college comprises 20 clinical departments, eight basic science departments and the School of Health and Rehabilitation Sciences. As part of one of the nation's most comprehensive universities, inclusive of seven health science colleges, the College of Medicine unites a wide breadth of expertise, innovation and resources.

**Ohio State University Physicians, Inc./Faculty Group Practice**

Ohio State University Physicians, Inc., is the medical group managing The Ohio State University Wexner Medical Center's outpatient physician clinics.

Ohio State physicians belong to our Faculty Group Practice (FGP), a physician-led organization focused on clinical quality, patient safety and physician efficiency and productivity. The FGP facilitates collaboration among clinical departments and physicians across the Ohio State Wexner Medical Center.

Our physicians benefit from streamlined administrative functions so that valuable resources can be directed toward innovative program development, improved outcomes and quality assurance.

**John J. Warner, MD**  
 Chief Executive Officer, The Ohio State University Wexner Medical Center  
 Executive Vice President, The Ohio State University

Dr. Warner leads the vision, strategy and operating performance of The Ohio State University Wexner Medical Center's research, education and patient care mission across its hospitals, outpatient care centers, nationally ranked College of Medicine and research institutes. A national leader in academic medicine, he's dedicated to improving health care quality, safety and experience by putting patients and their families first.

## Be part of the Buckeye Spirit

The Buckeye Spirit is how we honor the tradition of Ohio State — by bringing passion, commitment and joy to the people we serve. In everything we do at the Ohio State Wexner Medical Center, we embody the Buckeye Spirit through our shared values of empathy, determination, inclusiveness, innovation, ownership and sincerity.

**Empathy** | Prioritizing the needs and acknowledging the feelings of others while serving

**Determination** | Reaching our highest potential despite challenges

**Inclusiveness** | Valuing diversity of people and points of view with respect and fairness

**Innovation** | Fostering curiosity, originality and continual growth through new perspectives

**Ownership** | Protecting and enhancing our reputation even when no one is watching

**Sincerity** | Adhering to ethical standards and upholding our organization's integrity

## World-class care for every person, every time

When we're at our best, we make a real difference to people. From telehealth to inpatient care, the Ohio State Wexner Medical Center is there when and where our patients need us.

Thousands of patients come to us for treatments and services they can't find anywhere else. As one of the nation's leading academic medical centers, we offer health care services in virtually every specialty and subspecialty in medicine. Our treatment is deeply personalized because our resources are vast.

### Just a few of our accolades:

*In 2024, we celebrated our 32nd consecutive year on the U.S. News & World Report "Best Hospitals" list. U.S. News consistently ranks us the top adult hospital in Columbus.*

*This year, the Ohio State Wexner Medical Center has eight nationally ranked specialties out of 15, and four were selected as high performing. Rankings are based on outcomes, structure, patient experience and expert opinion.*

*We were the first hospital in central Ohio to achieve Magnet status for nursing excellence and have maintained it for 19 years.*

*We're one of the Becker's Hospital Review 100 Great Hospitals in America for excellence in clinical care, patient outcomes and staff and physician satisfaction.*

## Patient care by the numbers

**1,412** staffed beds

**5,300+** births

**60,599** patient admissions

**124,741** emergency department visits

**3.2M** outpatient visits

**58,897** surgeries

**136,705** telehealth visits

## Unparalleled discovery

Research is an integral part of what makes The Ohio State University Wexner Medical Center such a force in the global medical community. Our investment in research and commitment to the investigative process have led to many breakthroughs and innovative discoveries. We encourage research at all levels, knowing that the research seeds planted today will yield life-changing results now and in the future.

The Ohio State University has one of the most comprehensive health science campuses in North America — with colleges of Medicine, Nursing, Pharmacy, Dentistry, Optometry, Public Health and Veterinary Medicine — adjacent to the tremendous resources and expertise of other university departments. This proximity fosters remarkable collaborations, which makes Ohio State unique in the country in its potential to promote scientific partnerships and the direct translation of research discoveries into new medical therapies and technologies.

The Ohio State University College of Medicine continues to experience significant increases in extramural funding. In fiscal year 2024, total funding awarded to the College of Medicine for research increased by approximately 13.8%, to more than \$477 million.

With research centers dedicated to cancer, heart and lung disease, behavioral medicine and more, plus more than 140 shared core labs, we foster collaboration and shared resources that maximize grant dollars and time to discovery.

The Ohio State University Comprehensive Cancer Center - Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (OSUCCC – James) contains five highly interactive and collaborative cancer research programs: Cancer Control; Leukemia and Hematologic Malignancies; Cancer Biology; Molecular Carcinogenesis and Chemoprevention; and Translational Therapeutics. More than 420 scientists from 12 of the 15 colleges at Ohio State are funded members of one of these research programs. Altogether, Ohio State’s cancer program comprises some 1,700 researchers.

The Pelotonia Research Center is a new state-of-the-art facility that brings together a multidisciplinary team of Ohio State researchers and scientists, from the College of Medicine to Biostatistics and Biomechanical Engineering. The center’s goal is to save more patient lives by shortening the time from initial research to new treatment options.

Among other initiatives, the center’s collaborative and interactive environment has led to the Pelotonia Institute for Immuno-Oncology, a bench-to-bedside research program focused on harnessing the body’s immune system to fight cancer at all levels, and the Center for Cancer Engineering – Curing Cancer Through Research in Engineering and Sciences (CCE-CURES) program, which designs, develops and integrates innovative engineering technologies and data analytics with cancer biology, biomechanics and fundamental science.

Scan for more information on our research centers.

## Research by the numbers

**1 of 64** members of a National Institutes of Health consortium that speeds the translation of scientific discovery into better patient care

**11** departments rank in the top 30 for the fiscal year 2023 Blue Ridge Institute for Medical Research rankings

**1** faculty member currently elected to the National Academy of Sciences

**2** faculty members currently elected to the National Academy of Inventors

**11** faculty members currently elected to the National Academy of Medicine

**2,000+** active research studies and clinical trials in virtually every medical specialty

## Preparing the next generation

The Ohio State University is one of the most comprehensive universities in the world, and one of the few with seven health science colleges on one campus. Our breadth allows students to pursue their academic passions while benefiting from novel interdisciplinary collaborations.

- College of Dentistry
- College of Medicine
- College of Nursing
- College of Optometry
- College of Pharmacy
- College of Public Health
- College of Veterinary Medicine

### College of Medicine

For more than 100 years, The Ohio State University College of Medicine has combined innovative medical education with leading-edge research and science-based patient care.

We're proud of what we've accomplished and of our impact on the changing face of medicine. Our leaders have charted a course for the future as we continually evolve to meet ever-changing demands in medicine.

The Ohio State College of Medicine is consistently ranked among the top medical schools in the United States, both public and private. The college's innovative curriculum places students in clinical settings from the start of their first year. We're one of the few schools in the world to offer five dual medical degrees: MD/PhD, MD/MBA, MD/JD, MD/MHA and MD/MPH. Our School of Health and Rehabilitation Sciences offers degrees in health information management and systems, health sciences, medical laboratory science, radiologic sciences and therapy, respiratory therapy, physical therapy, occupational therapy, dietetics and nutrition and athletic training.

More than 80 accredited graduate and residency programs train more than 1,018 residents and fellows each year. In addition, physicians and other health professionals in approximately 150 countries access our web-based continuing medical education programming each year.

### Designing spaces for the future of health care delivery

With a goal of strengthening the focus on interdisciplinary curriculum that matches the way health care professionals will practice and face challenges in the real world, we opened the new home of the College of Medicine and the Interdisciplinary Health Sciences Center in 2024. This \$157.3-million project includes a 120,000-square-foot renovation of Hamilton Hall and a new 100,000-square-foot building featuring flexible facilities to serve multiple disciplines. It also creates a collaborative campus for interprofessional education throughout the health sciences, including Dentistry, Nursing, Optometry, Pharmacy, Public Health and Veterinary Medicine.

## Our hospitals

Across the university, we're paving our bold, innovative path forward by building the campus of the future to support teaching, learning, research and patient care. This extraordinary undertaking includes the expansion of our premier academic medical center.

**Brain and Spine Hospital:** Specialized units for stroke care, traumatic brain injuries, spinal cord injuries, chronic pain and more.

**Dodd Rehabilitation Hospital:** Home to our acclaimed inpatient program specializing in stroke, brain and spinal cord rehabilitation.

**East Hospital:** Blends the friendly atmosphere of a community hospital with all the advantages of a major medical center.

**Harding Hospital:** The most comprehensive psychiatric and behavioral health services in central Ohio.

**James Cancer Hospital and Solove Research Institute:** The third-largest cancer hospital in the country and the only freestanding cancer hospital in central Ohio, with satellite clinics such as the Stefanie Spielman Comprehensive Breast Center and The James Outpatient Care, which has central Ohio's only proton therapy center.

**Richard M. Ross Heart Hospital:** The nation's first hospital dedicated to cardiovascular care.

**University Hospital:** Our flagship facility, home to the region's most advanced intensive care units.

### Our central Ohio facilities

Beyond our seven hospitals, the Ohio State Wexner Medical Center has more than 100 facilities across central Ohio to provide convenient patient access and the space needed for the most technologically advanced research, teaching and patient care possible, including a network of primary care, outpatient and urgent care facilities, as well as dedicated specialty facilities for sports medicine, ENT and more.

Scan to read about our other facilities

## Building the future

Scan to view a video about our new inpatient tower

Our new hospital tower, scheduled to open in 2026, is the largest single facilities project ever undertaken at Ohio State. It's designed to enhance a unified Ohio State Wexner Medical Center campus providing world-class patient care, leading-edge research and outstanding clinical training.

- 820 large, private rooms to elevate patient-centered care, nearly doubling the number of beds we have today
- Enhanced connections between the new inpatient hospital and the OSUCCC – James
- More than half an acre of terrace space and a quarter acre of green space for a small park
- 148 additional beds for patients of the OSUCCC – James
- 51 neonatal intensive care unit bassinets
- State-of-the-art diagnostic, treatment and inpatient service areas; imaging; operating rooms; and critical care and medical/surgical beds

### Pelotonia Research Center

This five-story research center, which opened in 2023, advances the university's strategic plan and framework with state-of-the-art laboratories serving multiple research disciplines, including biomedical, life sciences, engineering and environmental sciences. In addition, two floors are dedicated to the OSUCCC – James, including a second home for the OSUCCC – James Pelotonia Institute for Immuno-Oncology and a new home for the OSUCCC – James Center for Cancer Engineering.

### Ohio State Outpatient Care Facilities

Starting in 2021, Ohio State began to expand our outpatient care footprint around central Ohio to bring world-class care to the community setting. Leading-edge facilities offering comprehensive care have opened in New Albany and Dublin, along with our most recent facility, The James Outpatient Care, which expands access to our nationally ranked cancer team.

## Living our values

At Ohio State, our most valuable asset is our people. With intent and purpose, we strive to create an environment that fosters a sense of belonging for all.

### Valuing diversity and difference

It takes the contributions of every individual to make our medical center successful. We find strength in the diversity of our faculty and staff, and we celebrate those differences. We remain curious to learn from one another and we strive to appreciate the unique backgrounds, experiences and perspectives that each of us brings.

### Creative solutions demand many voices

Every member of our team has the potential to contribute to ideas that enhance the health care we provide, impact our culture and shape our future. Our work toward collaborative, creative solutions includes our employee-led Resource Groups that are open to all employees. They provide peer support, mentoring and professional and personal development through identity and interest groups including veterans, LGBTQ+, Black faculty and staff, Hispanic/Latino and others.

### Our work supports healthy communities

It takes more than medicine to safeguard a person's health. Our work in education, prevention and overall wellness addresses the social determinants of health and systemic effects of bias and discrimination that impact individuals and our communities.

## Supporting the health and wellness of our community

As a land-grant institution, we hold a special responsibility to take care of our Ohio communities.

### Traveling to our patients

Various mobile units bring health care directly into underserved communities and make it easier for individuals to get important screening and preventive care.

- The Ohio State Community Care Coach offers convenient, walk-in care from a broad team of health care professionals.

- The OSUCCC – James has two mobile units with the latest digital mammography technology.

- Our Mobile Education Kitchen travels across central Ohio to share healthy food and nutrition information.

- Beginning early 2025, a Mobile Lung Screening Mobile will simplify important screening and lung cancer detection.

### A partnership for better health and wellness

Located on Columbus' Near East Side, the Healthy Community Center provides the health information, support and motivation area residents need to create and sustain lifelong healthy habits. Amenities the center offers include wellness activities, urban gardening partnerships, earth-friendly/sustainability education and events and health education and screening for common concerns such as high blood pressure, diabetes, obesity and healthy aging.

Scan to learn more about the Healthy Community Center.

### Tackling an epidemic

With an initial \$20 million grant from the Ohio Department of Mental Health and Addiction Services, our SOAR Studies will investigate the role of biological, psychological and social factors that underlie mental health challenges in all 88 Ohio counties. The SOAR Studies will identify the root causes of the ongoing epidemic of persistent emotional distress, suicide and drug overdose in Ohio.

### Combating infant mortality

Franklin County's infant mortality rate is one of the highest in the nation, with Black babies dying at twice the rate of white babies. It takes an entire community to save our infants, so we're committing substantial professional and volunteer support to the cause.

## Our values in action

In 2024, *Forbes* ranked us as one of America's Best Employers for Diversity.

7 graduate programs honored with an *INSIGHT Into Diversity* HEED Award – the most of any academic institution in the country.

## Columbus unexpected

We know you're interested in life beyond the hospital walls — and we're proud to say Columbus offers the best of big-city culture with small-town affordability.

### Why make your home in Columbus?

#### It's affordable

A dollar goes further here. The cost of living is 10% below the national average, and our average rent and home prices will leave you pleasantly surprised. As of 2024, the median monthly rent was \$1,091, and the median home price was \$358,927. Columbus' housing expenses are 20% lower than the national average and the utility prices are 7% lower than the national average. You don't have to live far from the city's center to get a great deal, either — our commutes are actually shorter than the U.S. average.

#### It's smart

Home to an expanding number of startup businesses, in addition to five Fortune 500 and 16 Fortune 1000 companies, Columbus harbors a spirit of innovation that attracts the best and brightest. We also produce the best and brightest at our top-ranked public and private schools. Learn more by searching Ohio's School Report Cards.

#### It's thriving

One of the fastest-growing cities in the country, Columbus is the 14th largest city in the United States and the second largest in the Midwest behind Chicago. We're home to an impressive list of employers and celebrated for our job creation. Oh, and we know how to have fun: Our arts and entertainment options will keep your calendar fully booked while our acclaimed food scene will satisfy your cravings from sushi to schnitzel. If you're into sports, we've got professional hockey and soccer teams as well as a college football program you may have heard about.

#### It's welcoming

Columbus is a city that invites and embraces cultural and economic diversity. There are 134 nations represented here, and our residents speak 109 different languages. We also have a reputation for being accepting, welcoming and LGBTQ+ friendly.

**A youthful, entrepreneurial energy has fueled a lot of changes in Ohio's capital, a fashion design hub (you read that right) brimming with creative restaurants, craft breweries, distilleries and small-batch coffee roasters.** – *Chicago Tribune*

**With a revitalized riverfront and booming downtown, Columbus is already one of the nation's fastest-growing cities.** – *The New York Times*

**If there's one thing we know about the Midwest now, it's to stop expecting certain things from the Midwest, and certainly not Ohio's capital city, which has a nearly Sun Belt-esque buoyancy about it these days, as it welcomes all-comers, from all over the world, into the ever-growing fold.** – *Food & Wine*

## Explore Columbus

### Eat and explore

Columbus knows how to satisfy your cravings. While we're the hometown of nationally known food brands — such as Jeni's Splendid Ice Creams, Wendy's, Bob Evans and White Castle — there are plenty of tempting dishes from talented local chefs. Just a few options:

- **North Market:** While most communities around Columbus offer seasonal farmers markets, this one is the granddaddy of them all. In operation since 1876, this downtown spot offers fresh everything.
- **Arena District:** Restaurants, bars, sporting events, concerts, movies and entertainment, all just steps from the Greater Columbus Convention Center, Huntington Park and Nationwide Arena.
- **German Village:** Great food and craft beer where Columbus' German immigrants got their start.
- **Short North:** Eat, drink, shop and admire the art in the culturally rich Short North Arts District, which you'll recognize by the 17 lighted arches that frame this famed stretch of High Street.
- **Local brews and spirits:** Sample craft beer, wine, gin, vodka, bourbon and mead, all made by Columbus entrepreneurs and local breweries.

### Cheer — and join in

Whether you're a fan or a participant, Columbus offers plenty to get your heart pumping. A few of the teams and activities:

- **Columbus Blue Jackets**, National Hockey League team
- **Columbus Crew**, Major League Soccer team
- **Columbus Clippers**, AAA Major League Baseball affiliate of the Cleveland Guardians
- **More than 59 golf courses within a 15 mile radius of Columbus**
- **PGA Memorial Golf Tournament**, hosted by Jack Nicklaus
- **The Arnold (Schwarzenegger) Sports Festival**, four days, 60+ sports and 12,000+ athletes from around the world
- **Nationwide Children's Hospital Columbus Marathon**

### Bring the family

Kid-friendly Columbus is bursting with family entertainment:

- **COSI (Center of Science and Industry)**, named "No. 1 Science Center for Families" by *Parents* magazine
- **Columbus Zoo and Aquarium.** Be sure to visit Zoombezi Bay right next door
- **Columbus Metropolitan Library**
- **Ohio State Fair**, which draws more than a million visitors for a 12-day event
- **Ohio History Center and Ohio Village**
- **Franklin Park Conservatory and Botanical Gardens**
- **Olentangy Caverns**
- **Columbus Children's Theatre**
- **Red, White and BOOM!**, Ohio's largest fireworks display

### Corporate Columbus

Columbus boasts an impressive list of employers. Some of our largest — and also some of our most generous community philanthropists — include:

- JPMorgan Chase & Co.
- Nationwide Mutual Insurance Co.
- Honda
- L Brands Inc.
- Huntington Bancshares Inc.
- Cardinal Health Inc.
- American Electric Power
- Bread Financial
- Abercrombie & Fitch
- CoverMyMeds
- Wendy's International
- Kroger Co.
- Amazon
- Giant Eagle Inc.
- Rogue
- Intel
