

**Ohio State Wexner Medical Center (OSUWMC)** is an **American Heart Association Gold Plus Comprehensive Stroke Center (CSC)** and the recipient of the **2025 Get With The Guidelines®-Stroke Gold Plus with Target: Stroke Honor Roll Elite Plus with Target: Type 2 Diabetes Honor Roll** award.

A Comprehensive Stroke Center (CSC) certification is the most demanding and is designed for those hospitals that have specific abilities to receive and treat complex stroke cases. This designation works in collaboration with The Joint Commission, The American Heart Association, and American Stroke Association.

Participation in American Heart Association's **Get With The Guidelines® – Stroke (GWTG-S)** promotes the latest evidence-based stroke care.

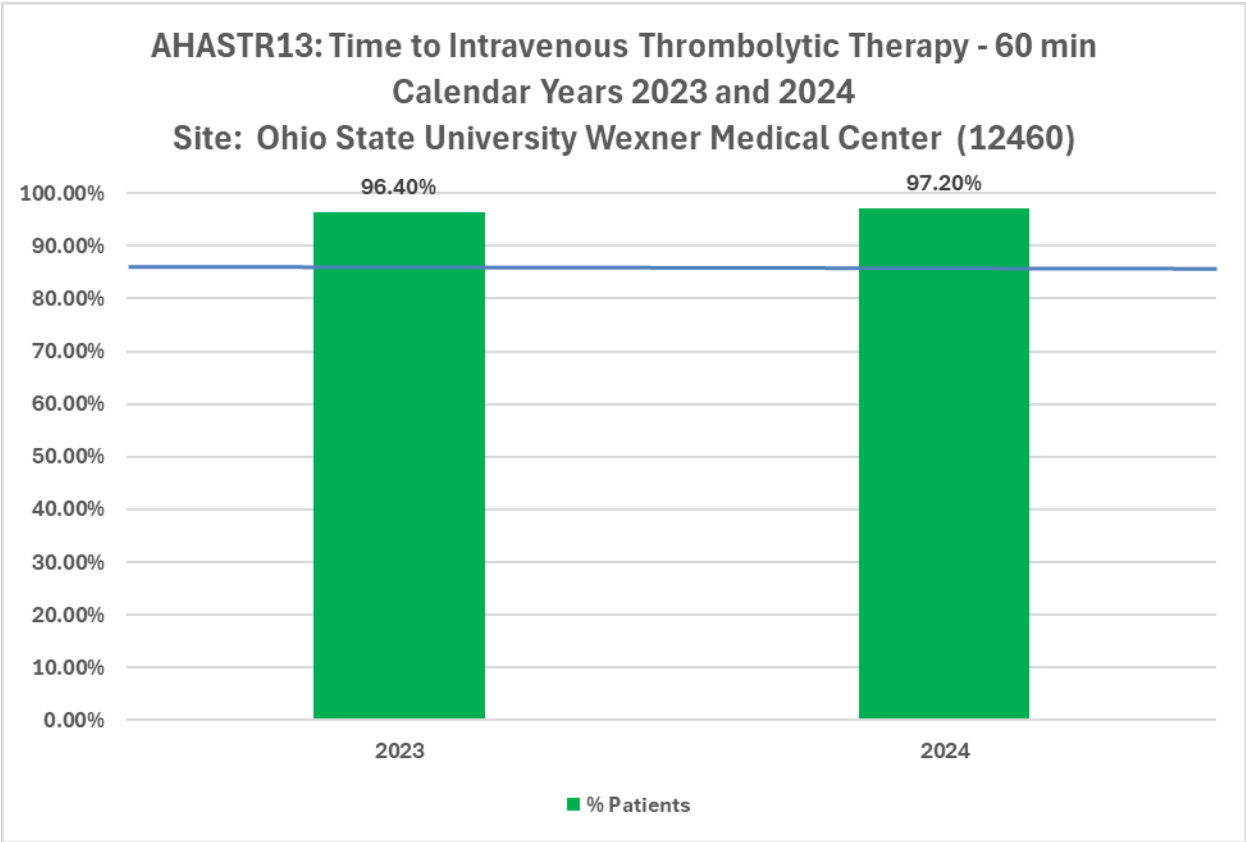

**NATIONAL GOALS FOR PHASE III PRIMARY GOALS:**

- Achieve door-to-needle times within 60 minutes in 85 percent or more of acute ischemic stroke patients treated with IV thrombolytics.
- Achieve door-to-device times (arrival to first pass of thrombectomy device) in 50% or more of eligible acute ischemic stroke patients within 90 minutes (for direct arriving patients) and within 60 minutes (for transfer patients) treated with endovascular therapy (EVT).

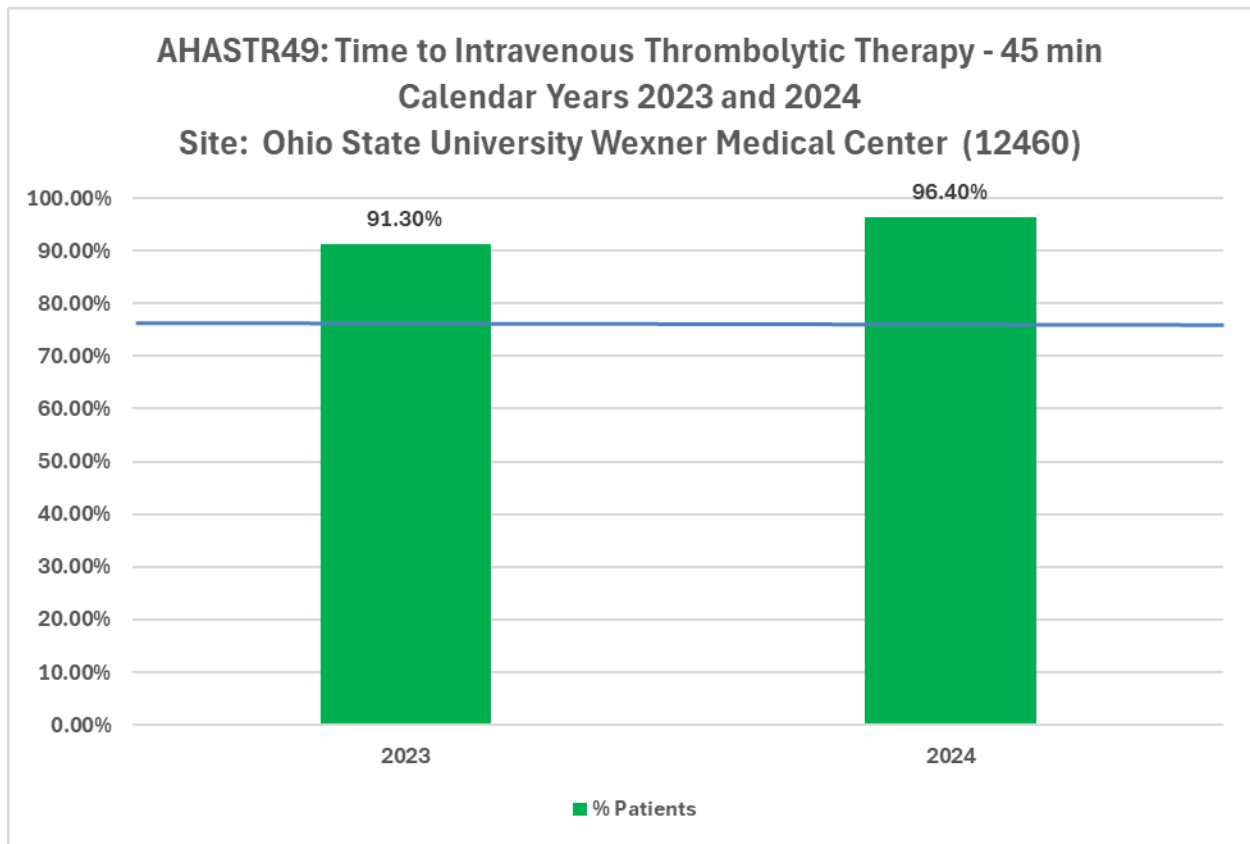

**NATIONAL GOALS FOR PHASE III SECONDARY GOALS:**

- Achieve door-to-needle times within 45 minutes in 75 percent or more of acute ischemic stroke patients treated with intravenous thrombolytics.
- Achieve door-to-needle times within 30 minutes in 50 percent or more of acute ischemic stroke patients treated with intravenous thrombolytics.

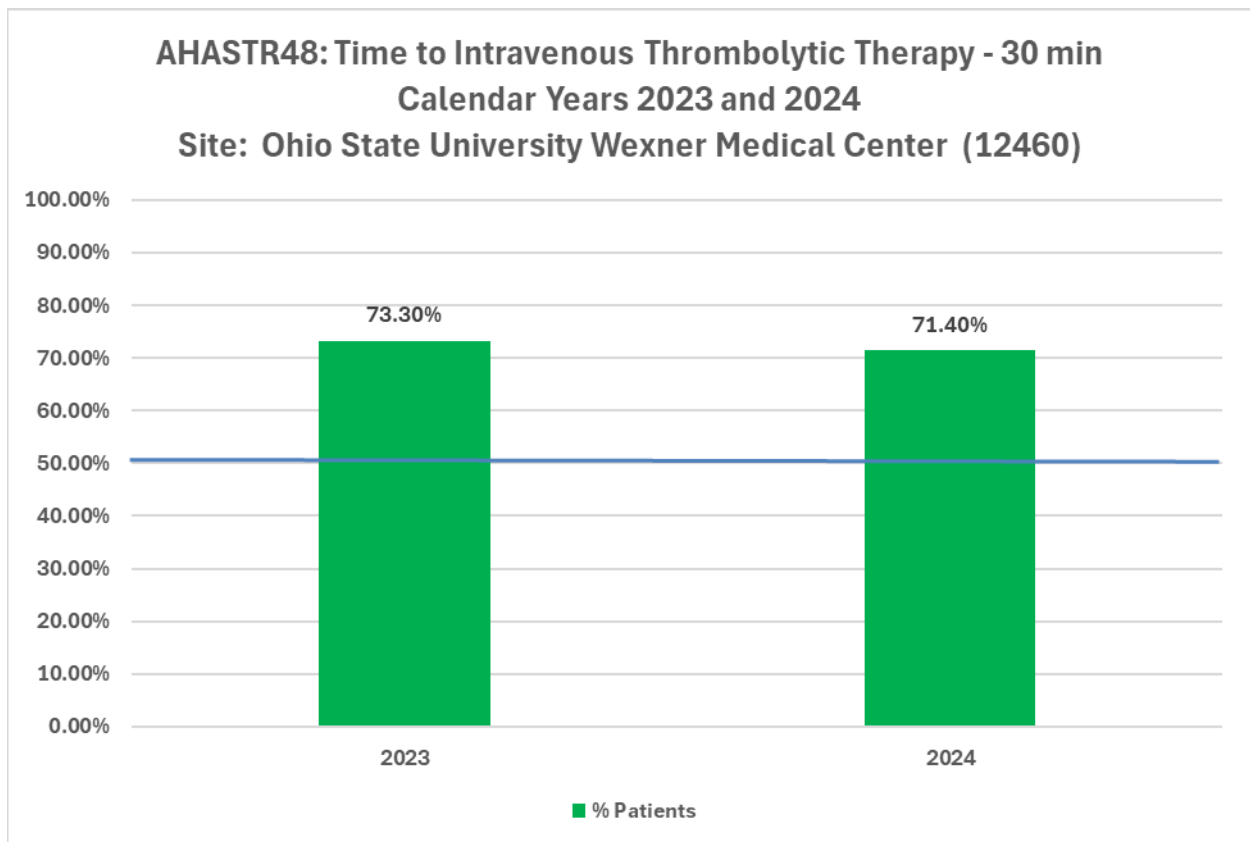

- **Time to intravenous thrombolytic therapy - 60 minutes measure summary**

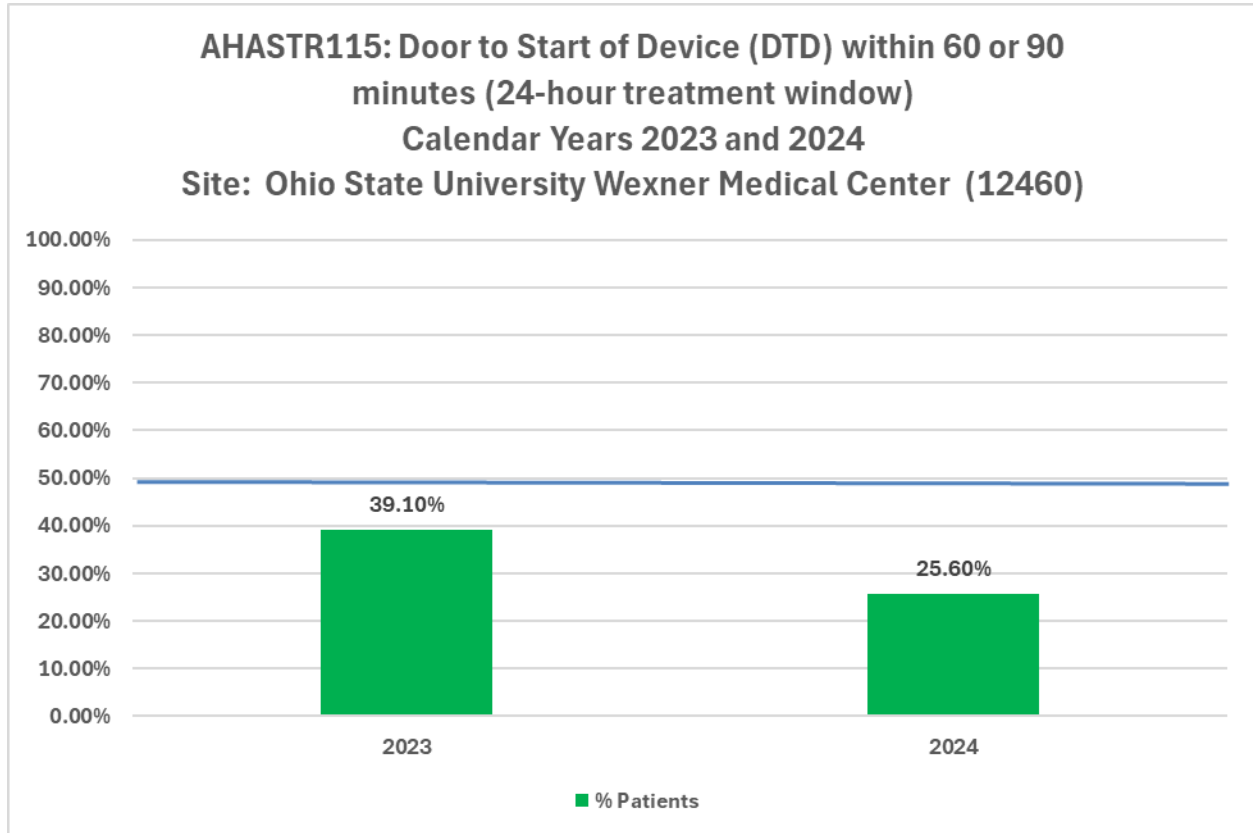

- Time to intravenous thrombolytic therapy - 45 minutes measure summary

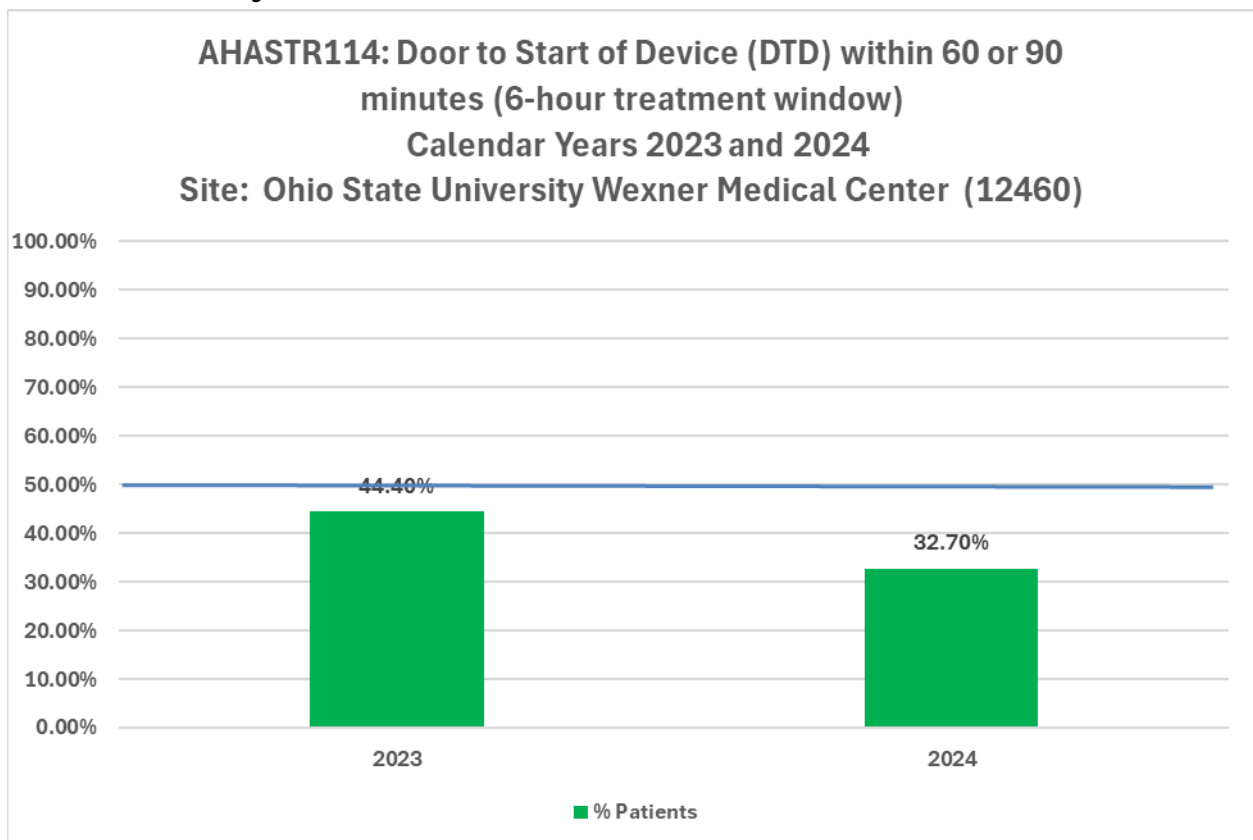

- Time to intravenous thrombolytic therapy - 30 minutes measure summary

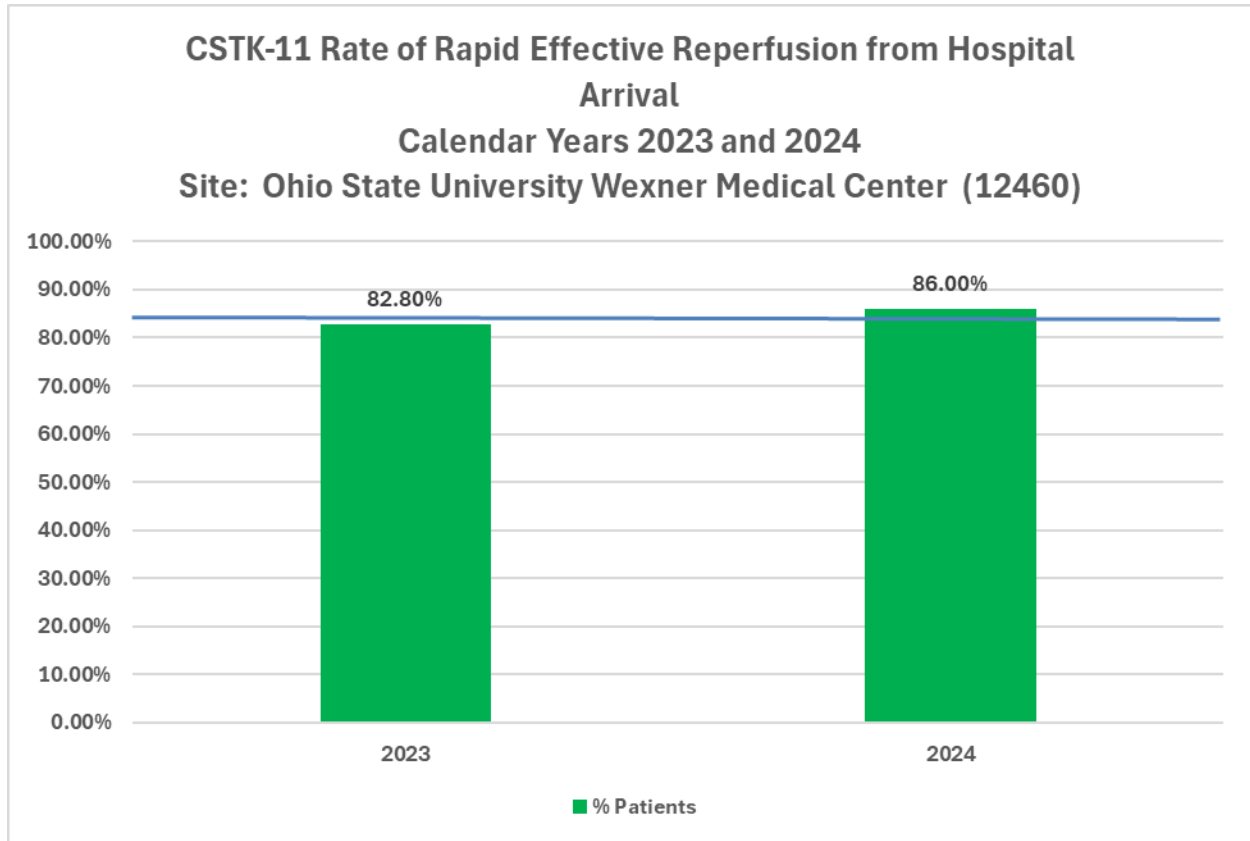

- **Door to Start of Device (DTD) within 60 minutes for patients transferred from an outside hospital OR within 90 minutes for patients presenting directly (24-hour treatment window) measure summary**

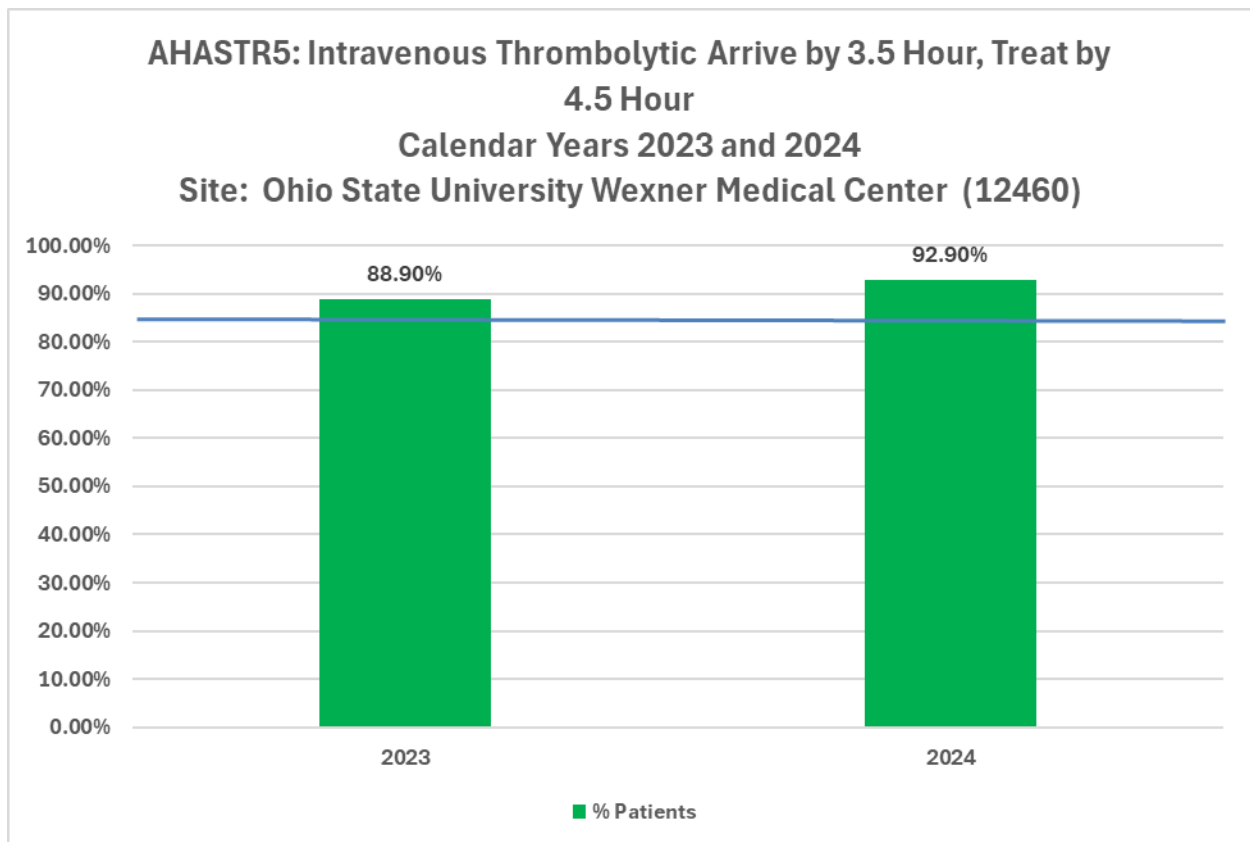

- **Door to Start of Device (DTD) within 60 minutes for patients transferred from an outside hospital OR within 90 minutes for patients presenting directly (6-hour treatment window) measure summary**

- **Rate of Rapid Effective Reperfusion From Hospital Arrival measure summary**

- **Intravenous (IV) thrombolytic arrive by 3.5 hour, treat by 4.5 hour measure summary**

- **Dysphagia screen measure summary**
