SPONTANEOUS MEDITATION

Spontaneous Meditation is a natural and simple technique of consciousness that strengthens and supports both the mind and body to enhance health and well-being. This technique is not based on concentration, contemplation, or manipulation of the mind. During meditation the mind is spontaneously opened to and nourished by the underlying field which is the infinite source of energy, intelligence, and bliss. Spontaneous Meditation connects one to the wholeness of life, improving all aspects of health and wellness. In this program you will also learn a breathing exercise.

Spontaneous Meditation Group Instruction is taught monthly in three sessions:

The three sessions in December are:

**December 2, 4:30-6:00pm**  
**December 3, 4:30-5:30pm**  
**December 9, 4:30-5:30pm**
