

# 2017-2018 NEUROSCIENCE SEMINAR SERIES

Sponsored by the Neuroscience Research Institute at The Ohio State University  
 115 Biomedical Research Tower (BRT) unless otherwise noted  
 12:00 – 1:00 pm

Date	Speaker and Title	Host
September 11	<p><b>Michael Rosbash, Ph.D.</b>            Peter Gruber Professor of Neuroscience Brandeis University  <i>Title: "Fly Brain Circadian Circuitry and Its Relationship to Locomotor Activity Rhythms, Phase Shifting, Neuronal Firing, and the Molecular Clock"</i>  <b>DHLRI 170 Davis Heart and Lung Research Institute</b></p>	NGP Students
September 18	<p><b>Louis Ptacek, Ph.D.</b>            John C. Coleman Distinguished Professor of Neurology            Investigator, Howard Hughes Medical Institute            University of California-San Francisco  <i>Title: "Clinical, genetic and biological characterization of the human circadian system"</i>  <b>DHLRI 170 Davis Heart and Lung Research Institute</b></p>	NGP Students
September 25	<p><b>Arturo Alvarez-Buylla, Ph.D.</b>            Professor of Neurological Surgery            University of California- San Francisco  <i>Title: TBA</i></p>	NGP Students
October 2	<p><b>Anglique Bordey, Ph.D.</b>            Professor of Neurosurgery            Yale School of Medicine            Yale University  <i>Title: "Cortical Abnormalities Leading to Social Deficits and Seizures"</i></p>	Min Zhou
December 11	<p><b>Michael Cayouette, Ph.D.</b>            Research Unit Director and Professor of Cellular Biology            Montreal Clinical Research Institute  <i>Title: "Mechanisms of cone photoreceptor development: from genesis to lamination"</i></p>	Andrew Fischer
December 18	<p><b>Connie Cepko, Ph.D.</b>            Professor of Genetics and Ophthalmology            Harvard Medical School  <i>Title: "TBA"</i></p>	NGP Students

# 2017-2018 NEUROSCIENCE SEMINAR SERIES

Sponsored by the Neuroscience Research Institute at The Ohio State University  
 115 Biomedical Research Tower (BRT) unless otherwise noted  
 12:00 – 1:00 pm

February 12	<b>Lisa Monteggia, Ph.D.</b> Professor of Neuroscience UT Southwestern Medical Center <i>Title :TBA</i>	Katie Lenz
February 26	<b>Jonathan Kipnis, Ph.D.</b> Professor and Chair, Department of Neuroscience Director, Center for Brain Immunology and Glia (BIG) University of Virginia <i>Title: TBA</i>	NGP Students
March 5	<b>Aileen Anderson, Ph.D.</b> Professor Physical Medicine & Rehabilitation Anatomy & Neurobiology University Of California- <i>Irvine</i> <i>Title TBA</i>	Phillip Popovich
March 19	<b>Emory Brown, Ph.D.</b> Warren M. Zapol Professor of Anaesthesia and Director, Neuroscience Statistics Research Laboratory Massachusetts Institute of Technology <i>Title TBA</i>	NGP Students
March 26	<b>Ann McKee, Ph.D.</b> Professor of Neurology & Pathology, CTE Center Director Boston University <i>Title TBA</i>	Niki Kokiko-Cochran
April 2	<b>Vittorio Gallo, Ph.D.</b> Director, Center for Neuroscience Research Director, Intellectual and Developmental Disabilities Research Center George Washington University School of Medicine and Health Science <i>Title TBA</i>	Min Zhou
April 16	<b>Sandhya Koushika, Ph.D.</b> Associate Professor DBS-Tata Institute of Fundamental Research <i>Title TBA</i>	NGP Students
April 30	<b>John Cryan, Ph.D.</b> Professor & Chair, Dept. of Anatomy & Neuroscience University College Cork <i>Title TBA</i>	Leah Pyter
