

Ohio Brain Injury Program & Ohio Brain Injury Advisory Committee

Strategic Directives for 2020-2025

1. Have good data for statewide planning and evaluation. Estimate adult prevalence rates for history of TBI from Ohio BRFSS
2. Have a workforce of healthcare and social service providers who understand brain injury
3. Advocate for use of best practices for accommodating the effects of TBI encountered in specific service delivery and support systems
4. Increase awareness of the issues faced by persons with brain injury and their families
5. Create the infrastructure for strategic plan implementation
